

The move by Sinclair Broadcasting to force their stations to air an anti-Kerry documentary days before the election is a blatant partisan act that violates the terms of their free use of American airwaves.

Broadcasters is obligated by law and by basic civic responsibility to serve the public interest. Sinclair's position that this program is not a partisan broadcast requiring equal time to be provided for the pro-Kerry side is pure nonsense.

Please take the strongest possible action to stop Sinclair and othes from such overt misuse of the pubic trust.
